

## Corporate Setup & Incorporation — End-to-end

*For founders post-incorporation, scale-ups standing up the UK entity, or international groups establishing a UK subsidiary. The company exists on paper. You are now staring at banking, insurance, registered office, brand, web, domain and Google Workspace. Atlas Verum runs the bundle so your team can stop chasing setup and start trading. Lite, Standard, Premium. Operational entity in four to six weeks.*

### FOR

#### Where it hurts

- Founders standing up a new UK Limited entity
- Scale-ups setting up a UK subsidiary or finance vehicle
- Mid-cap groups spinning out a carve-out or acquisition vehicle
- UK contractors moving from sole trader to Ltd structure
- International founders incorporating a UK presence
- Existing entities needing brand, web, and email infrastructure refreshed under one engagement

#### Why end-to-end

Most incorporation services stop at the IN01 filing. Atlas Verum delivers the working entity, with our registered, compliant and long-standing partner network carrying the regulated work alongside. Banking introduced. Insurance placed. ICO registered. Domain pointed. Website deployed. Brand set. First-cycle accounting policy in hand. Operational from week six.

### WHAT'S INCLUDED

#### The working entity, scoped to where you are

Atlas Verum runs. Companies House IN01, registered office, VAT and PAYE registration, accounting policy memo, engagement letter library, capability one-pager template, and a content cohort to launch the credibility surface.

Partner network carries. Business banking introductions to UK-registered banks. Professional indemnity placement through FCA-authorized brokers. ICO data-protection registration. Solicitor work where bespoke contracts are required. Web hosting and DNS through enterprise-grade providers.

Scope is matched to where your business actually is. The smallest engagement is a clean incorporation with policy memo. The fullest engagement is a working trading entity with brand, web, banking, insurance and first-cycle credibility surfaces all live.
